## 1. Introduction

Brihanmumbai Municipal Corporation is having 4 major hospitals & medical colleges, 16 peripheral hospitals, 5 specialized hospitals, 30 maternity homes & 192 dispensaries, HBT 242 HBT Clinics. Average daily 50,000 out patients outdoor & 2000 in patients put together in all BMC facilities. Presently Life style disorder & non communicable disease like cancers disease is major concern to health facilities.

In Mumbai, Tata Cancer Hospital & few Private Hospitals presently are providing Advance Oncology services to patients which are insufficient & not affordable to poor & needy persons. Hence BMC has decided to tie up with private partner to participate in developing such dedicated advance oncology care facilities for poor & needy at affordable rate as well as viable to them to run it for long period with their clinical, technical expertise which will bring efficient utilization of present structure.

To prepare draft, learns from their experiences & take inputs from them, understand criticality, various financial models to build & operate such facility, it is incumbent on BMC to invite such expert organization on one platform & shared input of all will help to finalize RFP documents which stand to scrutiny of transparency accountability, purity & efficiency, at the same time viability of project. Hence EOI are invited for such expert agency to submit their opinion to finalize RFP.

## 2. Expression of Interest

This Expression of Interest intends to communicate, receive desired information and concretize on types and extent of Proton Therapy Treatment facilities to be covered, various models of engagement of possible private partner, roles and responsibilities of different stakeholders, standards of service level delivery and benchmarking etc, and thereafter, short listing of interested private partners/applicants for aforementioned purposes. Subsequently, a RFP will be issued on the basis of above, suitable Public-Private Partnership vendors/partners to established, finance, construct, operate & maintain Proton Therapy Treatment facilities on PPP basis & to operationalize the scheme.

This EOI is for deciding/finalizing scope and extent of diagnostic services, partnership model and for short listing of private agencies/partners which will help BMC in

organizing and starting Proton Therapy Treatment facility/centre at site of Acworth Hospital of Brihanmumbai Municipal Corporation or most feasible site in Mumbai.

Brihanmumbai Municipal Corporation may shortlist/select one or many partners for the next stage of RFP. Further, the final selection would be of Public-Private Partnership separately. It will be the complete discretion of BRIHANMUMBAI MUNICIPAL CORPORATION to decide on this issue.

Private Agencies of good standing and repute having skills, capacities and experience in the providing similar services are invited to submit their proposals to BRIHANMUMBAI MUNICIPAL CORPORATION.

### **3. Proton Therapy Treatment Facilities/Services**

3.1 BRIHANMUMBAI MUNICIPAL CORPORATION through KEM Hospital is plans to establish a state of arts wide network of Proton Therapy Treatment facilities/centers, primarily on PPP model. The entire project is proposed to be structured in a hierarchical fashion with three tiers of centers.

3.2 At the highest level, a oncology centre will be developed at Acworth Hospital, Mumbai with private participation. This will be the state of art centre with latest equipment and treatment facilities at par with best centre in India.

3.3 BMC is under process of construction of most advance proton therapy oncology centre wherein most of the advanced diagnostics and treatment facilities for cancer would be offered. The list of BMC Hospital & medical colleges where proposed for oncology facilities are as follows:

- K.E.M. Hospital
- B.Y.L. Nair Hospital & Medical college
- L.T.M.G. Hospital & Medical college
- H.B.T. Cooper & Medical college
- B.D.B.A. Shatabdi Hospital, Kandivali
- Rajawadi Hospital , Ghatkopar

3.4 At the lowest level, facilities would be developed to have tissue collection and primary detection facilities. Doctors and other staff would suitably be trained and required infrastructure will be made available for this purpose in peripheral hospitals.

#### 4. Objective and Scope of Work/Services

- 4.1. The centers are proposed to be developed with the participation of private sector partners.
- 4.2. The exact type and scope of involvement and responsibilities would be decided before issue of detailed RFP. However, a proposed model of involvement is discussed in following paragraphs.
- 4.3. In brief, the proposed model envisages government involvement in providing space, where as the private partner would be responsible for providing necessary design, finance, construction & infrastructure, equipment, consumables, technical and other manpower and for running and maintaining the facilities. The supervision and monitoring would be in the hands of government, which will be exercised through designated authority/agency/committee at KEM Hospital.
- 4.4. The private partner will be responsible for the entire operation and management of the centre under government supervision; will undertake diagnostics and treatment of the patients of BMC hospital. The services may also be extended to patients referred from other government/private hospitals under specific terms and condition to be decided.
- 4.5. It is proposed that all OPD patients would be treated at pre decided charges. Further, there would be charges for in-patients availing different facilities/treatment at the centers.
- 4.6. The types of facilities, infrastructure and services to be offered at different centers have also been proposed tentatively.
- 4.7. The Financial model would thus be based on a combined evaluation of rates which were to be charged by private partner for different treatment/services. For determining the final rates, corresponding rates of various treatments available in CGHS/AIIMS may be taken as base, and bidders may be asked to offer a discount on these rates. However, other reasonable criteria may also be adopted to finalize the financial bids of the proposal at RFP stage.

#### 4.8 Proposed Model in PPP Mode

- The Advance Proton Therapy treatment Center / Oncology centre is expected to run on a PPP mode.
- BMC will provide like suitable land for necessary infrastructure creation.
- All equipment and support infrastructure shall be provided by the private partner. The equipment installed would have to be brand new and USFDA compliant.
- Doctors for running the cancer diagnostic and treatment facilities should be provided by the private partner. Rest of the manpower (Para medicals, Nurses, Technicians, Administrative and Support Staff etc) will also be provided by the

private party.

- Day to day operational cost such as medicine cost, consumables/reagents costs etc. for the centers shall be borne by the private party.

#### 4.9 Proposed Roles and Responsibilities of Different Parties

##### **Private Sector**

- To design, finance, build, equip the necessary infrastructure for proton therapy treatment center,
- To provide all equipment and manpower,
- Develop (Functional Modifications) and operate the Treatment & Diagnostic center as per various national and international standards,
- Recruit/Staff human resource for diagnostic center,
- Ensure robust Management Information System (MIS) to provide critical information to BMC,
- Maintenance and up gradation of the machines,
- Maintain quality & inventory of the consumables,
- Adhere to its all contractual obligations,
- Other necessary scope of work will be finalized in RFP.

##### **Brihanmumbai Municipal Corporation**

- To provide covered space for construction of building require to established & operate Advance Proton Therapy Treatment Center / Oncology centre of KEM Hospital at Acworth.
- To provide adequate space for Proton Therapy treatment Center and ensure smooth handover of the designated space to the private operator
- To provide doctors for administrative supervision and monitoring.
- Monitor KPI's defined in the concession
- Facilitate patient flow to the Centers from BMC Hospitals
- Provide assistance to the private operator in obtaining the requisite approvals/clearances
- Provide private patients access to the operator
